Dr. Marcus Eriksen, who sailed to Hawaii last summer on a **JUNKraft** made of 15,000 plastic bottles, will be stopping in Santa Barbara along with Anna Cummins on their 2,000 mile bicycle **JUNKride** from Vancouver to Tijuana to raise awareness of the “plastic soup” polluting our oceans.

C. Morishige, NOAA Marine Debris Program

The Algalita Marine Research Foundation found a plastic to plankton ratio of 46 to 1 in their 2008 ocean study!

Learn more about their “Message in a Bottle” Project.

Monday, June 15th, 6:30 - 8pm

Cabrillo Arts Pavilion, 1118 E. Cabrillo Blvd.

Refreshments Provided

Forum sponsored by the City of Santa Barbara Creeks Division and County Project Clean Water.
Partially funded by hotel visitors through Measure B.
